

**Itaconix plc**

**(“Itaconix” or the “Company”)**

**Full Year Trading Update**

***Record revenues exceeding \$10 million for the first time, driven by third consecutive record half year and strong customer momentum***

Itaconix plc (AIM: ITX) (OTCQB: ITXXF), a leading innovator in high-performance plant-based specialty polymers, is pleased to provide a trading update for the year ended 31 December 2025.

Unaudited revenues for FY 2025 increased 59% year-on-year to \$10.3 million (FY 2024: \$6.5 million), exceeding \$10 million for the first time. This performance was underpinned by a third consecutive record half year, with revenues of \$5.5 million in H2 2025, up from \$4.8 million in H2 2024.

Revenue growth was generated across both existing and new customers, spanning major applications and geographies. Demand for the Company’s patented plant-based polymers continued to strengthen as global consumer product manufacturers increasingly adopt sustainable, high-performance ingredients to enhance formulation performance and deliver added value in detergent, hygiene and beauty products. This growth in revenue and a step change in the Company’s commercial traction have enabled Itaconix to invest further in demand generation and support for 2026.

The Board remains optimistic about the Company’s prospects for 2026 and believes that Itaconix is well positioned to deliver continued revenue growth, supported by a growing customer pipeline, expanding product adoption and a scalable, capital-efficient operating model.

Further details on 2025 trading performance and the outlook for 2026 will be provided with the Company’s FY 2025 results, expected in late March 2026.

**John R. Shaw, CEO of Itaconix, commented:**

*“2025 was a milestone year for Itaconix. Delivering record revenues of over \$10 million for the first time, alongside our third consecutive record half year, demonstrates the accelerating commercial momentum behind our technology and customer proposition.*

*“We are seeing growing validation from both new and existing customers as our plant-based specialty polymers become embedded in next-generation consumer products where performance, sustainability and value are all critical.*

*“Entering 2026, Itaconix is operating from a position of strength: we are well funded, capital efficient and supported by a deep and expanding revenue pipeline. With increasing scale, disciplined execution and strong customer engagement, we believe the Company is firmly on track towards building a large, profitable and enduring specialty ingredients business, delivering long-term value for shareholders.”*
