

Revision number: HCS2012 1.4 Revision date: 18 March 2022

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

**Product identifier** 

Product name Itaconix® ONZ<sup>TM</sup> 400

Product CAS number 2220235-78-7

Other identification Poly(itaconic acid-co-AMPS) sodium, zinc salt;

Butanedioic acid, 2-methylene-, polymer with 2-methyl-2-[(1-oxo-2-

propen-1-yl)amino]-1-propanesulfonic acid, sodium zinc salt

Relevant identified uses of the substance or mixture and uses advised against

Recommended use Odor absorbing agent in cleaner formulations

Uses advised against No information available

Details of the supplier of the safety datasheet

Company Itaconix Corporation

Address 2 Marin Way, Stratham, NH 03885, USA

Telephone +1 (603) 775-4400 E-mail info@itaconix.com

**Emergency Telephone Number** 

+1 (603) 775-4400 (Monday – Friday 09:00 – 17:00 US EST)

## **SECTION 2: Hazards identification**

# **GHS Classification of the substance or mixture**

Classification (29 CFR 1910.1200)

Acute (oral) toxicity Category 4 - Harmful if swallowed Acute aquatic toxicity Category 2 - Toxic to aquatic life

**GHS Label elements** 

Labelling (29 CFR 1910.1200)

Hazard pictograms

Signal word Warning

Hazard statements H302 Harmful if swallowed

H401 Toxic to aquatic life

Precautionary statements P264 Wash hands thoroughly after handling

P270 Do not eat, drink or smoke when using this product

P273 Avoid release to the environment P301 + 307 If swallowed: Get medical help

P330 Rinse mouth

Revision number: HCS2012 1.4 Revision date: 18 March 2022

P501: Dispose of content/container to landfill according to local, state and federal regulations

#### Other hazards

The mixture contains <0.1% of unknown impurities

# **SECTION 3: Composition/information on ingredients**

## **Mixtures**

Chemical name	CAS number	Classification	Concentration
Poly(itaconic-co-AMPS, sodium, zinc salt)	2220235-78-7	Acute Oral 4	~29 wt.%
Potassium sorbate	24634-61-5	None at that	0.5 wt.%
		concentration	

## **SECTION 4: First aid**

# **Description of first aid measures**

If inhaled If breathed in, move person to fresh air. If respiratory symptoms

develop, call a physician.

In case of skin contact Flush skin with water.

In case of eye contact Rinse immediately with plenty of water and seek medical advice.

If ingested Do not induce vomiting, rinse mouth with water. Call a physician.

First aid responders shall wear standard personal protective equipment (safety glasses, medical

examination gloves)

# Most important symptoms and effects, both acute and delayed

Symptoms None known

# Indication of any immediate medical attention and special treatment needed

Treatment Treat symptomatically.

## **SECTION 5: Firefighting measures**

## **Extinguishing media**

Suitable extinguishing media Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

## Special hazards arising from the substance or mixture

Revision number: HCS2012 1.4 Revision date: 18 March 2022

Specific hazards during firefighting: decomposition products may be produced such as carbon oxides

## **Advice for firefighters**

Special protective equipment for firefighters: In the event of fire, wear self-contained breathing apparatus.

#### **SECTION 6: Accidental release measures**

## Personal precautions protective equipment and emergency procedures

Use personal protective equipment in accordance with good industrial practices (gloves, eye protection, labcoat/overalls, dust mask). Provide sufficient ventilation and control dust.

## **Environmental precautions**

Do not let product enter drains.

## Methods and materials for containment and cleaning up

Contain/absorb with non-combustible absorbent material (e.g., sand, earth, vermiculite, chemical absorbent). Vacuum, or sweep up and shovel into suitable containers for disposal.

# **SECTION 7: Handling and storage**

## Precautions for safe handling

Normal measures as prevention against fire. Minimize exposure to dust in accordance with good industrial practices. Wear appropriate PPE. Wash hands thoroughly after handling. Do not eat, drink nor smoke in work areas. Wash hands before breaks and at the end of workday.

## **Conditions for safe storage**

Keep container tightly closed. Containers which are opened must be carefully resealed to avoid contamination. Store in a cool place below 45C. No special restrictions on storage with other products.

# SECTION 8: Exposure controls/personal protection

## **Control parameters**

Contains no substances with occupational exposure limit values (No OSHA PEL and no ACGHIH TLV).

## **Exposure controls**

**Appropriate engineering controls:** Ensure good ventilation. Arrange for eye wash (recommended). Handle in accordance with good industrial hygiene and safety practice.

Revision number: HCS2012 1.4 Revision date: 18 March 2022

**Personal protective equipment:** Eye and hand protection, laboratory lab coat or overalls are recommended.

**Respiratory protection:** In case of dust, wear dust mask (N95 or equivalent or better).

Eye/face protection: Safety glasses with side-shields conforming to NIOSH (US) or EN166 are

recommended.

**Hand protection:** Handle with gloves. Nitrile gloves are suitable. **Skin protection:** Laboratory coat or overalls are recommended.

**Environmental exposure control**: do not release material to drains, ground or surface water.

# **SECTION 9: Physical and chemical properties**

## Information on basic physical and chemical properties

a) Physical state	Liquid
b) Color	Yellow

c) Odor and odor threshold No odor – no threshold

e) Boiling point >100C

f) Flammability (solid, gas)

g) Upper/Lower flammability or explosive limits
h) Flash point
No data available
Not applicable
No data available
No data available

i) Auto ignition temperaturej) Decomposition temperatureNo data available

k) pH 5-6.6\* I) Kinematic Viscosity <500 cpP

m) Solubility
Highly water soluble
n) Partition coefficient: n-octanol/water
o) Vapor pressure
No data available
No data available

p) Relative Density 1.2\*

q) Vapor density No data available r) Particle characteristic Not applicable

\* Internal test protocol

# Other safety information

Explosive properties

Oxidizing properties

No ingredients have these properties

No ingredients have these properties

# **SECTION 10: Stability and reactivity**

## Reactivity

No data available.

# Itac € NIX Polymers for Better Living™

# Itaconix® ONZTM 400

Revision number: HCS2012 1.4 Revision date: 18 March 2022

## **Chemical stability**

Stable product under recommended storage and handling conditions.

# Possibility of hazardous reactions

None known under normal processing.

#### Conditions to avoid

Heat above 90°C.

## Incompatible materials

Avoid strong oxidizing agents.

# **Hazardous decomposition products**

Hazardous decomposition products may be formed under fire conditions such as carbon oxides and zinc oxide.

# **SECTION 11: Toxicological information**

# Information on toxicological effects

Some data available on mixture. Where not tested, data derived from or based on individual components are shown below:

	(a) acute toxicity	Non-regulated in-vitro cytotoxicity test – Category 4 [300-
--	--------------------	---

2000 mg/L].

(b) skin corrosion/irritation No skin irritation (OECD 439).

(c) serious eye damage/irritation No data available. (d) respiratory or skin sensitization No data available. No data available. (e) germ cell mutagenicity (f) carcinogenicity No data available. No data available. (g) reproductive toxicity (h) STOT-single exposure No data available. (i) STOT-repeated exposure No data available. (j) aspiration hazard No data available.

**Likely routes of exposure**: Contact with skin and eyes.

#### Information on other hazards

None

# **SECTION 12: Ecological information**

## **Toxicity**

Revision number: HCS2012 1.4 Revision date: 18 March 2022

OECD 201: Algae growth EC50 = 1.1 mg/l (72 hr)
OECD 202: Daphnia growth EC50= 77 mg/l (48hr)

## Persistence and degradability

OECD 302B: Inherently biodegradable. Reach 70% biodegradation within 10 days.

## Bio accumulative potential

No data available.

## Mobility in soil

No data available.

#### PBT and vPvB assessment

This substance/mixture contains no known components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB).

## **Endocrine disrupting properties**

None known.

#### Other adverse effects

None known.

## **SECTION 13: Disposal considerations**

#### Waste treatment methods

**Product:** Treat as non-hazardous waste. Dispose to landfill. Avoid disposal to sewage. Dispose of in accordance with local, state and federal regulations.

**Contaminated packaging:** Empty remaining contents. Empty containers should be taken to an approved waste handling site for recycling or disposal.

# **SECTION 14: Transportation information**

UN number

UN proper shipping name

Transport hazard class(es)

Packing group

Not regulated as a dangerous good

Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code) Not applicable

Special precautions for user Not regulated as a dangerous good

## **SECTION 15: Regulatory information**

Revision number: HCS2012 1.4 Revision date: 18 March 2022

# Safety, health and environmental regulations/legislation for the mixture

# The components of this product are reported in the following inventories:

EU-REACH Polymer exemption. All the raw materials above 2 wt.% are registered by

Itaconix or by its suppliers.

US-EPA All chemical substances in this product are listed on the TSCA Inventory.

## **Chemical Safety Assessment**

A Chemical Safety Assessment has been carried out on this mixture by the US-EPA.

Based on US-EPA's assessment, which includes analogue data, EPA has concluded that prolonged or repeated ingestion of this product may cause reproductive toxicity or immunotoxicity, and may damage organs such as the gastrointestinal tract. EPA has also concluded that chronic exposure to this product may be harmful to aquatic organisms.

This product is subject to a Significant New Use Rule [SNUR - TSCA section 12(b)] for any release of a manufacturing, processing, or use stream associated with any of this product into the waters of the United States exceeding a surface water concentration of 143 ppb.

## California Prop. 65

This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.

## **SECTION 16: Other information**

Revision number HCS2012 1.4
Revision date 18 March 2022
Supersedes Version HCS2012 1.2

Nature of revision Updated aquatic toxicity data and classification. Updated format.

This SDS is based on HCS 2012 GHS 29 CFR 1910.1200

The above information is believed to be correct at the time of preparation but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product.
